Customer Problem Statement (PS-1)

Section	Content
I am *(Customer)*	Rahul, a fitness enthusiast who exercises regularly.
I'm trying to	Efficiently track exercise history, monitor overall fitness progress, and obtain workouts aligned with my goals.
But	I manually record workouts using physical notebooks and spreadsheets.
Because	There is no centralized system to search records, calculate stats, or provide expert personalized workout guidance.
Which makes me feel	Inefficient in record-keeping, uncertain about exercise alignment, and demotivated without actionable insights.
